PROJECT CA0061	Bus Strategy - Strategic Support	15/04/2015	The purpose of this commission is to engage an Advisor that will: A. Lead development of the Bus Strategy 'daughter document' element of the Single Transport Plan including providing advice, guidance and support regarding associated stakeholder and public consultation; and B. Support the development of the outline business cases for the Bus Strategy project. The work undertaken by the Advisor will help shape the strategic aims, objectives and outcomes for buses across West Yorkshire over the next 10-15 years.	05/05/2015	31/12/2016
PROJECT NO. CA0062	Bus Strategy - Technical Support	17/04/2015	The purpose of this commission is to engage an advisor to provide technical support to the bus strategy project. The advisor will lead, co-ordinate and integrate the production of many of the key areas of technical work necessary to produce the evidence base for the business case(s) for the project. The preparation of the bus strategy outline and full business cases are key deliverables for this commission. Beyond this, it is envisaged that further business cases (and associated technical work) will be required as stakeholders provide additional information on potential options. These further business cases and associated technical work would also be produced through this commission and therefore this commission will be for the duration of bus strategy project.	22/06/2015	31/03/2016

PROJECT CA0063	Supply of QR codes and NFC tags	20/04/2015	West Yorkshire Combined Authority is seeking to appoint a supplier for the provision of coded QR codes and NFC tags for West Yorkshire bus stops and Totem sites, providing access to stop specific real time information. The contract will be for an initial quantity, although replacements may be required for the next 5 years.	22/05/2015	21/05/2020
PROJECT NO. CA0064	Low Emission Vehicles - ULEV Consultancy	20/04/2015	Preparation of West Yorkshire plus York ULEV Bid/Bids to the Office for Low Emission Vehicles West Yorkshire Combined Authority wishes to commission transport consultancy support for the preparation of a series of detailed bids to the Office of Low Emissions Vehicles for funding from their 2015-2020 ULEV programmes. Formal guidance has now been issued for the Go Ultra Low City Scheme, Low Emission Bus Scheme and Ultra Low Emission Taxi Scheme.		
PROJECT CA0065	Real Time Information System - Tender - Lot 1 - Static Data Management	28/04/2015	This lot will be for a hosted software service to provide the following functions Receipt of bus timetable data in ATCO.CIF and TransXchange formats; Receipt of bus timetable data in Excel or CSV bespoke formats; Data validation tools to verify accuracy, completeness and appropriateness of data; A presentation layer to present the bus timetable data and allow amendments to it. A presentation layer to allow Traffic Signal Priority Trigger Points to be created and maintained All geographic data to be referenced and presented on a map interface Data export tools to output the above data in a variety of formats.	30/11/2015	

PROJECT CA0066	Real Time Information System - Tender - Lot 2 - Real Time Platform	28/04/2015	<p>This lot will be for a hosted software service to provide the following functions Receipt of static bus timetable and TLP trigger point data in defined formats including TransXchange Receipt of Traffic Light Priority Requests in RTIG T031 format Receipt of Bus real time vehicle locations in SIRI – VM, SIRI-ET,RTIG DAIP, and other protocols. Receipt of Incident Information in SIRI-SX, DATEX2 and other formats. Receipt of live traffic data in UTM XML Processing of live and static data to generate bus arrival predictions at stops Processing and despatch of Traffic Light Priority requests to UTC systems Provision of comprehensive Fleet Management software on a per user licence basis. Provision of monitoring and reporting functions to ensure accuracy and completeness of data provision Generation of a comprehensive daily data set presenting a history of all bus operations and generated system outputs – to include data files to enable replay of individual vehicle journeys showing its route progress on each journey with a temporal granularity of at least one minute. Data must be presented to enable granular online analytical processing within Lot 3. An Integrated Incident Management function to enable service disruption and road network disruption information to be received, entered, updated and managed Live outputs for downstream real time consumers with data provided in a range of formats including SIRI – VM, SM, ET, SX, and other APIs.</p>	30/11/2015	
----------------	--	------------	---	------------	--

PROJECT CA0067	Real Time Information System - Tender - Lot 3 - Historical Reporting	28/04/2015	<p>This lot will be for a hosted software service to provide the following functions : Receipt of daily data for static bus timetable data and daily bus vehicle operational vehicle centric and and bus stop centric data – to include journey replay files. Storage of all data in a data warehouse Provision of means to enable analytical online processing of the data Tools to enable flexible online analytical processing and querying of the datasets including ‘wizards’ for report creation Tools to enable the presentation of data in tabular and graphical forms Tools to enable the geographic presentation of data including specifically the presentation of vehicle journey history and bus stop predictions. Data Export functions.</p>	30/11/2015	
PROJECT CA0068	Real Time Information System - Tender - Lot 4 - Open Data Platform	28/04/2015	<p>This lot will be for a cloud hosted software service, providing a secure platform to: Receive data from system provided by lots 1-3 Make these data available to subscribers and requestors in a variety of formats with a variety of service levels Data will need to be managed for all buses and all bus stops in Yorkshire and surroundings. Provide a flexible scalable platform for growing levels of demand. Services likely to be using this platform include SMS, web and mobile applications where demand will vary significantly during times of adverse weather and traffic conditions. At these times the supplier will need to accommodate dramatically increased demand.</p>	30/11/2015	

PROJECT CA0069	Real Time Information System - Tender - Lot 5 - Information Outputs	28/04/2015	This lot is for design, provision of, hosting and ongoing support for public facing website, mobile website, mobile application, SMS and interactive voice response telephone services. Suppliers will need to: Source data from Lot 4 and legacy systems Present data via the outputs noted above to agreed service levels.	30/11/2015	
PROJECT CA0070	Real Time Information System - Tender - Lot 6 - Signs and Totems	28/04/2015	This lot will be on a call off basis for: product design, manufacture and installation and maintenance of real time information signs and totems for use at bus stops, on buses and other on street and off street locations primarily for the presentation of bus information. This may include requirements to adopt existing RTI signage and to supply touch screen journey planners. Data will need to be sourced from lot 4 outputs and elsewhere and the supplier will need to demonstrate how content will be effectively managed on these signs where content may be sourced from several locations. Requirements may include the presentation of streamed video and other media.	30/11/2015	
PROJECT CA0071	Real Time Information System - Tender - Lot 7 - Bus Station Information Systems	28/04/2015	This lot will be on a call off basis for: product design, manufacture, installation, hosting and maintenance of software and real time information signs and totems for use at bus stations and other off street locations. This may include requirements for touch screen journey planners. Data will need to be sourced from lot 4 outputs and potentially elsewhere and the supplier will need to demonstrate how content will be effectively managed on these signs where content may be sourced from several locations. Requirements may include the presentation of streamed video and other media.	30/11/2015	

PROJECT CA0072	Bus Tenders - Batch 617 - Service 183	08/05/2015	Service operates Monday to Friday only, Wakefield to Pontefract via Castleford and Skills Xchange.	19/07/2015	21/07/2018
PROJECT CA0073	go:walking delivery organisations - Retender	12/05/2015	Community-based organisations are sought to deliver programmes of local interventions in a range of locations, based on local authority wards across West Yorkshire. The go:walking project is funded by the Local Sustainable Transport Fund and runs from April 2015 to March 2016. Delivery organisations will learn and use Community Street Audits, deliver walking activities targeted at the least active, and perform other planning, monitoring and evaluation activities. The project may be supplemented by additional funds from the Department for Transport's Walking Cities Fund. This opportunity has been advertised via contracts finder.		
PROJECT CA0074	Webchat	14/05/2015	West Yorkshire Combined Authority (WYCA) is responsible for the MetroLine contact centre. The contact centre provides public transport information over the phone, by email, social media and is currently undertaking a 6 month trial of live chat. WYCA is looking for an easy to use live chat solution, the aim to support customers using our website www.wymetro.com	18/09/2015	17/09/2018
PROJECT CA0075	South Elmsall Transport Hub - Consultancy	22/05/2015	The South Elmsall Transport Hub scheme comprises general re-fresh, layout alterations, new waiting shelters, Real-Time information and cycle stands within the existing bus station, in addition to footway improvements within the bus station and on the approach to the rail station. Hub Totem(s) and new wayfinder signage are also to be provided.		

PROJECT NO. CA0076	Leeds Bus Station - Toilet Refurbishment	28/05/2015	WYCA is seeking to procure a Lead Designer and professional architectural consultancy services in relation to a project for the refurbishment and redesign of the toilet facilities at Leeds City Bus Station. The proposed redesign shall include remodelling the area the current facilities occupy to create: • High quality toilet environment; • Pay to use facilities; • Free to use baby change and disabled toilet areas; • Store and cleaners sluice rooms; and • New retail unit.		
PROJECT CA0077	District Heat Programme - Technical Services	02/06/2015	The project is for the development and production of district heat network feasibility studies for three separate areas of the Leeds City Region. The required feasibility studies are for district heat energy masterplans covering Barnsley Town Centre and Knottingley / Castleford Town Centres, and a techno-economic feasibility study for York Hospital and the surrounding area. Project management of the feasibility studies along with stakeholder engagement will be carried out by a separately procured professional services provider.	01/09/2015	29/02/2016
PROJECT CA0078	Bus Strategy - Focus Groups	03/06/2015	To carry out a small number of focus groups to help define the consultation approach for the development of the Bus Strategy with a strong possibility of extension into deliberative events and other consultation input later.	22/06/2015	
PROJECT CA0079	Vehicle Inspection and Advice	04/06/2015	We are looking for an organisation that can carry out annual roadworthiness inspections on a range of different vehicle types and companies that operate WYCA contracts. They would also be required to carry out maintenance document audits and safety checks on equipment used on these vehicles. The engineers must be available at short notice and flexible with dates.	01/09/2015	31/08/2017

	City Connect - Advisory Group Chair	09/06/2015	The CityConnect project comprises £60m of cycle Infrastructure development and engagement activity to ensure we get people cycling and walking more often. It is supported by an Advisory Group of external stakeholders. The Group is voluntary but overseen by a paid independent chair. With the advent of the second tranche of funding - CityConnect 2 - this role is to be re-tendered as it will now continue until March 2018 and support/advise two programmes of activity. More information can be found at www.cyclecityconnect.co.uk .	01/09/2015	31/03/2018
PROJECT CA0081	MyBus Re-Livery - 2015	10/06/2015	West Yorkshire Combined Authority (WYCA) is looking to engage on an upgrade programme for its fleet of 45 Euro 4 Mybuses. These vehicles are BMC Condors that transport children to and from school every day. The buses are designed specifically to stand out to other road users and increase child safety. The development programme is in addition to the 2014 programme that saw 119 Euro 3 buses refurbished.	06/07/2015	31/12/2015

PROJECT NO. CA0082	CCTV Fibre Optic Rental Contract	10/06/2015	<p>WYCA has numerous rental agreements with BT for the provision of fibre optic links that have been taken out since 2000. BT being the only service provider who could offer comprehensive coverage, service, repairs and maintenance of WYCA sites. Over the years numerous BT annual rental orders for the fibre optic circuits have been set up as each bus station / property has been redeveloped or refurbished. The current rental agreements have different annual anniversary dates due to all the projects that have been undertaken since 2000. WYCA is to carry out a full technical review of existing cameras and digital circuits, after which a full business case will be developed to determine if the existing CCTV camera infrastructure can be rationalised and improved to reduce annual revenue costs and future capital costs. Once the review has been completed, meetings have been held with district partners, camera types, locations and numbers have been determined and local recoding options have been considered, it will be possible to determine the fibre optic routes required for links from the various sites back to Middleton. At that time a competitive procurement exercise will be undertaken for the provision of the fibre optic links. For the interim period this award is for the 2 year rental agreement for fibre optic cables and the omission of 4 fibre optic circuits currently provided to the districts (not including Leeds) which are underutilised and a further option to remove up to 4 further circuits over the 2 years of the contract.</p>		
--------------------	----------------------------------	------------	--	--	--

PROJECT CA0083	District Heat Programme - Project Management	11/06/2015	Provision of project management and stakeholder engagement services for three separate district heat network studies within the Leeds City Region. The studies are to be carried out for Barnsley Town Centre; Knottingley and Castleford Town Centres; and York Hospital and the surrounding area. The successful Contractor will be required to manage technical consultants producing the three separate district heat network studies. The Contractor will be required to ensure the required outputs are delivered on time, to budget and be of suitable quality. The successful Contractor will also be required to undertake stakeholder engagement with key stakeholders in the identified areas.	31/07/2015	28/02/2016
PROJECT CA0084	Bus Tenders - Batch 613 - Wakefield	11/06/2015	Home-to-school and within-school-hours bus services in the Wakefield districts in West Yorkshire.	01/09/2015	31/07/2018
PROJECT CA0085	Bus Tenders - Batch 611 - Kirklees	15/06/2015	Local bus services in the South Kirklees area.	25/10/2015	20/10/2018
PROJECT NO. CA0086	Batch 614 - Wakefield Taxis	22/06/2015	Taxi services in the Wakefield District.	01/09/2015	31/07/2016
